2. The Boundaries of Index Option Return Predictability: Evidence from Taiwan, with Zong-Wei Yeh, Pin-Chi Chen, and Tzu-Chieh Lin. Revise and resubmit at ***Pacific-Basin Finance Journal***. (SSCI; NSTC Finance A Tier 2) *Corresponding author.*
3. Good Jump and Bad Jump Risk Matters: Evidence from S&P500 Returns and Options, with Shih-Kuei Lin, Hsing-Hua Chang, Hung-Wen Cheng, and Pai-Ta Shih. *Working paper*. *Corresponding author.*

RESEARCH GRANTS

VIX Option Return Predictability via Machine Learning August 2026–July 2027
Principal Investigator, National Science and Technology Council

The Role of Good Jump and Bad Jump in VIX Option Pricing August 2025–July 2026
Principal Investigator, National Science and Technology Council

Good Jump, Bad Jump and VIX Futures Pricing August 2024–July 2025
Principal Investigator, National Science and Technology Council

HONORS AND AWARDS

Winner of the 2025 EFMA Capital Markets Best Paper Award 2025

Doctoral Dissertation Fellowship in the Humanities and Social Sciences, National Science and Technology Council, Taiwan 2023

Fellowship, MOST Pilot Program for Cultivating Outstanding Doctoral Students, Taiwan 2019

CONFERENCE PRESENTATIONS

2025 **European Financial Management Association Annual Meeting (EFMA)*** (*Winner of the 2025 EFMA Capital Markets Best Paper Award*); **Taiwan Society for Industrial and Applied Mathematics Annual Meeting (TWSIAM)**; **South Taiwan Statistics Conference (STSC)**; **Financial Engineering Association of Taiwan Conference (FeAT)**.

2024 **Taiwan Risk and Insurance Association Conference (TRIA)**; **South Taiwan Statistics Conference (STSC)**.

2023 **Taiwan Risk and Insurance Association Annual International Conference (TRIA)**; **International Conference on Finance and Management (ICFM)**; **South Taiwan Statistics Conference (STSC)**.

2022 **International Conference of Risk, Insurance, and Financial Engineering (TRIA–FeAT)***; **South Taiwan Statistics Conference (STSC)**.

2021 **South Taiwan Statistics Conference (STSC)**.

2020 **International Conference on Pervasive Artificial Intelligence (ICPAI)***.

* *Presented in English.*

TEACHING

Doctoral Program

- **Topics of Financial Machine Learning** Spring 2025

Master's Program

- **Financial Big Data Analysis and Data Mining** Spring 2024; Fall 2025
- **Financial Machine Learning** Fall 2024; Spring 2026
- **Seminar** Fall 2024; Spring 2026

In-Service Master's Program in Administrative Management

- **Technology Management** Fall 2025

Undergraduate Program

- **Application of Artificial Intelligence and Big Data on Management** Spring 2024; Fall 2025
- **Business Application Software** Spring 2024; Spring 2025; Spring 2026
- **Financial Technology** Fall 2024
- **Introduction to Computer Science** Fall 2024
- **Machine Learning and Financial Data Analysis** Spring 2025; Spring 2026
- **Python Programming and Application** Fall 2025
